

As you have probably noticed, the CAS Office of Communications has been doing a great job broadcasting news from the departments. Our website is how we let them know of noteworthy developments in Chemistry. If there are interesting things happening (research, awards, noteworthy speaking engagements, highlight of you and/or your work, publication of research in an important journal), please let us know so that we can post. Below are our most recent postings.

Corey Stephenson receiving the 2010 Boehringer Ingelheim New Faculty Award in Organic Chemistry:

<http://www.bu.edu/chemistry/2010/12/06/stephenson-receives-boehringer-ingelheim-award/>

Christina Rodrigo's (Porco Group) receipt of a nationally competitive Postdoctoral Fellowship from the ACS:
