In this book, eminent scholars of classical antiquity and ancient and medieval Judaism and Christianity explore the nature and place of forgiveness in the pre-modern Western world. They examine the concept in the contexts of classical Greece and Rome; the Hebrew Bible, the Talmud, and Moses Maimonides; and the New Testament, the Church Fathers, and Thomas Aquinas.

Antonii Bash, Durham University

“This book seeks to reveal the relationship between conceptual and historical inquiry. Its excellent chapters offer, through a series of well-chosen examples, an illuminating promenade from Homer to Maimonides and Thomas Aquinas, through Seneca, Jesus and the Rabbis, on a topic of at once perennial and contemporary great significance. The book opens up new vistas for the interdisciplinary study of the roots of Western cultural tropes. It is significant, in particular, that the editors, a classicist and a philosopher, recognize the necessity to integrate Jewish and Christian approaches, side by side with the Greco-Roman tradition, in order to decipher our own cultural inheritance.”

Guy Stroumsa, Oxford University

“This volume, edited by two experts on forgiveness, is a rich and timely work treating the emotion and different conceptions of it in the ancient Greek, Roman, and Judeo-Christian traditions. It should appeal to graduate students and scholars in classics, philosophy, religious studies, and Judaic studies.”

Ruth Caston, University of Michigan
